Making Impact Negotiating Decisions

**Do you or someone you know need help with school, getting a GED or getting into a better job?**

**Do you have issues in your life that always seem to hold you back and never let you get ahead?**

**M. I. N. D.**

**YOUR  
OWN  
BUSINESS**

This is more than a computer technology center. It is a plan to reach out into our community to provide a gala of services, taking into account the needs of the whole person. Our one-on-one conferences and motivational programs are designed to help with much needed encouragement and compassion.

We have set up a multi-faceted media center to address the electronic needs of our neighborhood. We desire to make computer technology available to young and old alike, promoting education and social skills as well as job search and employment assistance. Classes will include:

- preparation for GED
- achievement and ACT tests
- reading and literacy
- public speaking
- cooking
- etiquette
- fitness and exercise, even
- dressing for success.

In addition we will be working with Zane State College and Ohio University, Zanesville to promote post-secondary education. Food, clothing and other support programs will round out our agenda.

**Reaching the world starts with you!**

**Let us help you start on the road to a better life!**

**There's more to life than making babies, jail and bail!**

**YOU'RE WORTH THE EFFORT!**

**Making Impact Negotiating Decisions**
